

The Settler's Hut Trek

This is a very special 3 day trek with Mick Flannagan (Flanno or just Mick) one of the most knowledgeable people of the Snowy region. This is what it would have been like back in the early 1800's and an experience to be remembered forever.

Plenty of old fashioned yarns around the fire at night, excellent food, incredible riding terrain & river crossings & views to die for.

We prefer riders of at least intermediate level.

The following are sample photo's taken from around the Hut and you ride out each day into the mountain wilderness from the Hut.
